A DISTINCT SENSE OF PLACE

Tara Bernerd is the founder of the global interior architectural practice, Tara Bernerd & Partners, based in London's Belgravia. Renowned for creating enduring designs for an international portfolio of luxury hotels, private homes, and yachts, Tara Bernerd and her team seek to instill meaning, connection, and a feeling of authenticity in every project through the curation of a distinct sense of place.

At The Perigon, Tara Bernerd & Partners have combined fresh, textured interiors with a layered aesthetic that references Miami's vibrant art scene and yachting heritage while appealing to design-savvy citizens of the world.

Sanctuary-like interiors reflect the natural palette of Miami Beach and its ethereal quality of light, complemented by occasional pops of dark green and yellow in a sophisticated mix of textures.

Eye-catching luxury, together with a focus on craftsmanship and attention to detail, ultimately inspired every choice.

AN UNPARALLELED QUALITY OF FINISH

The exceptional design of The Perigon is complemented by finishes and materials of the highest quality. Natural stones, including imported Bianco Lasa Italian Marble, have been chosen for their enduring purity, while European White Oak and Canaletto Walnut add their unique beauty and warmth. Refined fabrics, tailored weaves, and brushed bronze introduce a touch of classic European influence, while original designs focus on detail and impeccable craftsmanship.

Finishes are sensitively layered to create spaces as imbued with tranquility as they are with a depth of coastal views

PURITY,
DURABILITY,
AND WARMTH

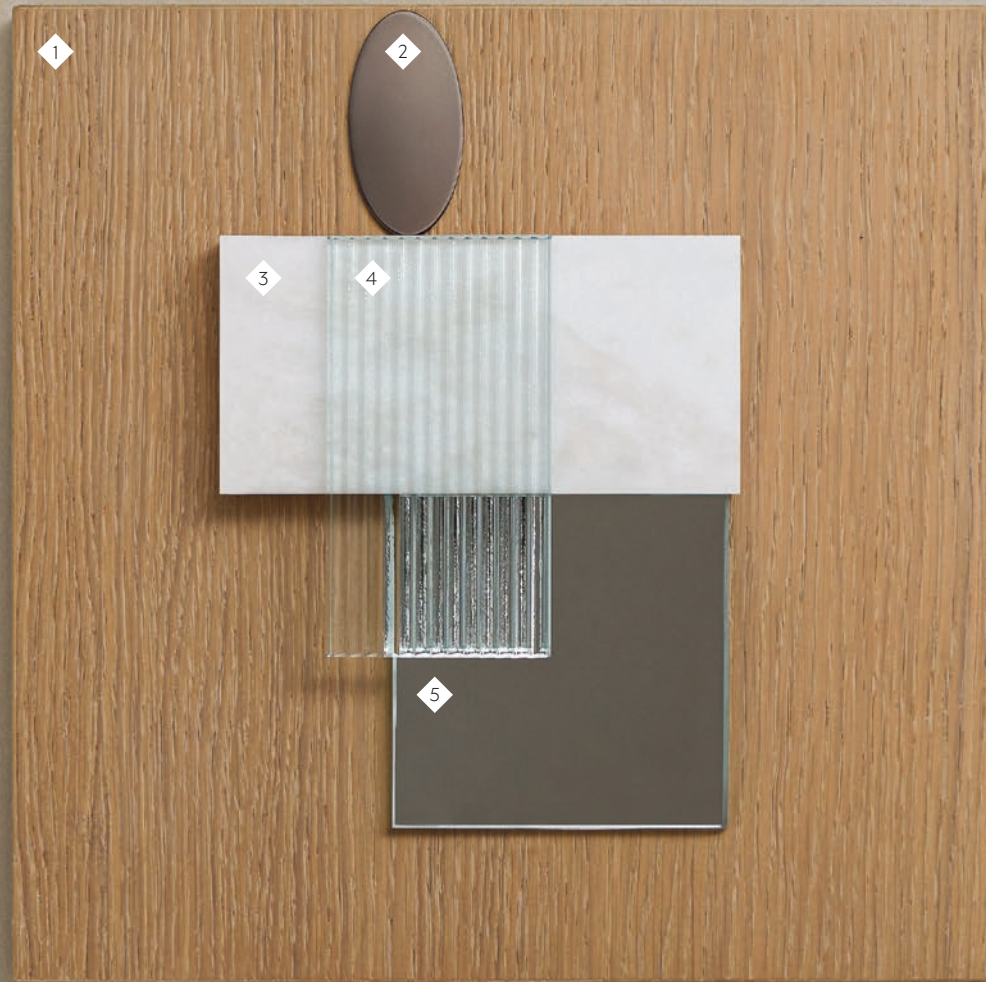

Utterly serene, the luminous primary bathroom of each residence features European White Oak cabinetry, white polished marble counters and walls, and honed white marble floors. Custom mirrors are framed in brushed bronze, and fittings are by AXOR, also in brushed bronze. Double showers and vanities complement the free-standing bathtub that is wrapped in the same white marble with a vertical rib motif.

Stones selected have an intrinsic warmth, emphasized by wooden elements and the continuous interplay of light and shadow
